Full Stack Developer | DevOps Developer | Front-end Developer

PROFESSIONAL SUMMARY

Dedicated Software Engineer with a passion for technology, with 7+ years of experience effectively providing support and guidance to developers in overcoming any obstacles and accomplishing tasks within the specified deadlines. Significantly contributed to ensuring the application met required standards and focused on understanding business rules. Achieved the development of a responsive and high-performing application through teamwork and continuous improvement.

AREAS OF EXPERTISE

- | | | |
|---------------------------|--------------------------|------------------------------|
| ✓ Team Collaboration | ✓ Problem-Solving Skills | ✓ System Stability |
| ✓ Preventing Team Burnout | ✓ Merge Process Safety | ✓ Global Competitor Analysis |
| ✓ UX Improvements | ✓ Continuous Improvement | ✓ Always Finding a Way |

CAREER HIGHLIGHTS

Streamlined Interactions: Reducing the number of interactions needed to do an action on most screens by 4 times, which made the user experience and productivity better.

Competitor Benchmarking Reports: Regularly compiled benchmarking reports for software development and service enhancements.

Weekly Innovation: Introduced weekly improvements without sacrificing business rules.

PROFESSIONAL EXPERIENCE

Full Stack Developer, [Konvix Tecnologia](#), São Paulo, Brazil | January 2022 – June 2023

Hired as Junior and promoted to Senior within 3–4 months, supported developers in overcoming obstacles, meeting deadlines, and collaborating for application standards and business rules.

- Assumed the role of mentor, guiding junior developers with limited programming knowledge, and provided answers to complex challenges.
- Dedicated 100% of my time to software development, ensuring continuous progress and support for the team despite my superiors' busy schedules.
- Conducted in-depth analysis of global competitors, steering the focus away from regional competition and aligning the company's strategies with international standards.

DevOps Engineer, [Banco do Nordeste do Brasil S.A](#), Ceará, Brazil | February 2020 – January 2022

Working with an optimistic attitude in the leading credit card team at the bank, assisting customers at the branch with system errors using our extensive database.

- Working closely with my team, we reduced processing time to under 30 minutes for the database handling data from millions of clients in Northeast Brazil.
- Intelligent automation of credit card and bank slip-related processes was implemented using technologies like **React** for the user interface and **Node.js** for server-side development.

Senior Java Developer, [Universidade de Fortaleza](#), Ceará, Brazil | February 2017 – January 2020

Unleashing the potential of Portal Unifor's online realm, developed, deployed, and maintained the platform's seamless feature.

- As the lead developer/designer at [Portal Unifor](#), my role involves overseeing the creation of an intuitive academic progress tracker that empowers students to easily keep track of their educational journey.
- With a focus on enhancing research efficiency, the designer of the electronic e-library interface aimed to make accessing resources seamless and effortless.

EDUCATION

Bachelor of Science, Computer Science, [Universidade de Fortaleza - UNIFOR](#), Ceará, Brazil | 2022
